## NOTICE TO DOG OWNERS

---

### Chapter 150, Laws of New Hampshire

Section 6—Every owner or keeper of a dog three months old or over shall annually on or before April 30 cause it to be registered, numbered, described and licensed for one year from the first day of ensuing May, in the office of the clerk of the city or town wherein said dog is kept, and shall cause it to wear around its neck a collar distinctly marked with its owner's name, and bearing attached to said collar a metal tag distinctly marked with its registered number. Said tag shall be furnished by the clerk at the expense of the city or town from the amount received from dog license fees.

Section 18—The mayor of each city and the selectmen of each town shall annually within ten days from May first issue a warrant to one or more police officers or constables directing them to proceed forthwith either to kill or cause to be killed all dogs within such city or town not licensed and collared according to the provisions of this chapter, and to enter complaint against the owners or keepers thereof ; and any person may, and every police officer and constable shall kill or cause to be killed all such dogs, whenever and wherever found.

## **REPORT OF THE SUPERINTENDENT OF SCHOOLS**

School Board of Plainfield:

It is a pleasure to submit my second annual report to the School Board and citizens of Plainfield. This is the sixteenth in the series of professional supervision.

In January, 1934, intelligence tests were given to all the pupils from the third grade up. The results were recorded on our permanent record files. The intelligence test is supposed to be a fair representation of the mental alertness and the ability of the child to do the work in his grade. In February, standard achievement tests were given to ascertain the quality of work that was being done by the pupils and teachers. The test given was the Stanford Test which contains a battery of examinations for reading, spelling, language, literature, history, geography, physiology, and arithmetic, both reasoning and computation. These tests included grades two through grade eight. If the work in the grades below the eighth can keep up the standard for the last year, we shall probably put all the grades up to or above standard achievement. This can only be done with continued good teachers and plenty of material in the line of books, maps, seat-work and so forth in our schools.

### **TEACHERS**

Of the eight teachers employed last year at the close of school, five have returned to their former positions. Mrs. Sweet who was released on account of illness last year is replacing Miss Tuttle at the Brook School. Mrs. Foster and Mrs. Hilliard of the Plain school both resigned and these places are being filled by two new teachers. Miss Hazel Sleeper, a graduate of Keene Normal School in the three

year course, has the position formerly held by Mrs. Foster which includes grades 5-8.

Miss Rebecca Richardson, also a graduate of Keene Normal School and a teacher of two years experience in the Lancaster public schools, has the primary grades. While changes are always to be regretted when a teacher has been doing good work, we have been, nevertheless, fortunate in these replacements.

#### FEDERAL AID

Beginning in November of last year the Federal Government through the State Treasurer furnished us money to supply undernourished children of needy parents with a half pint of milk per day. This is being continued this year, but the number of recipients has been considerably reduced. Under the direction of Mrs. Hasham, the school nurse, a considerable amount of cod liver oil was furnished the children during the winter months. Beginning in January of last year a fund was furnished to assist in procuring a warm lunch for those children who take dinners to school. This was handled very excellently in the one room schools where stoves were available for heating purposes. Equipment was procured through the ingenuity of the teachers. In the two room buildings less was done, but this year Plainfield Plain school has been fitted up by the parents. The money was furnished directly to the teachers who gave me a receipt for it. Teachers made purchases direct for material desired.

#### MEDICAL INSPECTION

Mrs. Hasham, the school nurse, has done an immense amount of work in the matter of examining the children, following up defects, urging parents to have defects corrected as well as conveying children to clinics herself. Trips have been made to Manchester, Hanover, Claremont, and other centers for the benefit of the Plainfield children. A dental clinic was held for the Spencer and Plain schools

when fifty-one pupils were given dental correction. The total dental corrections has been about sixty-eight. Mrs. Hasham has made one hundred and six visits to the schools, and seventy-three home visits. She has followed up vigorously some cases of suspected T. B. and has been instrumental in holding a clinic at the East Plainfield school on June 20 of last year when a number of adults and pre-school children were examined. The money expended in medical inspection is a very sensible thing and particularly so in our case.

#### GRADUATION AND PRIZE WINNERS

Former town resident, Honorable H. E. Ward, in the spring of 1934, as for the year previous, offered a series of prizes for the best essay on some patriotic subject, with New Hampshire as a central theme. The eighth grade pupils are the only ones who participate. The town, for this purpose, was divided into two sections. The winners in the eastern section were:

- 1st—Irene Demers
- 2nd—Herbert Bean
- 3rd—Earl Woodward

The winners in the western section were:

- 1st—Robert Crawford
- 2nd—Alexander White, Jr.
- 3rd—Barbara Stone

#### MINOR REPAIRS

I am listing here the minor repairs which were done on the various schools. East Plainfield school windows were refitted and made tight. The roof on the wood shed recovered and a section of blackboard was installed. At the Meriden school the interior was redecorated in both rooms, a new water supply installed and one side of the roof shingled. The interior of the Brook School was entirely repainted which adds a great deal to the light effect there. Ten modern

single unit desks were installed. We need about five more in this building. Shingling and a new step at the Spencer School were the principal repairs made here. The Methodist Hill School, if it continues to be used, should be refinished inside as should also the school at East Plainfield and the Plain. New blackboards were installed at the Brook and the Plain schools.

#### FINANCES

A great deal of correspondence was had last winter with the State Board so that we were able to increase the allotment by about \$300.00 over what had been originally assigned. This year it appears that the budget for local assessment may be lower than last year on account of the decrease in high school tuition charges. There is an increase in the transportation item which is entirely due to circumstances because no individual who transports children in Plainfield is receiving more pay than heretofore for the number of children carried. I trust that none will begrudge any part paid to conveyors. Rather we, as school officials from our own desires and from the pressure of the motor vehicle department, must insist on safe and commodious vehicles. In one or two instances neighborhood feuds seem to irritate the situation. I hope the time will soon come when we shall have only the first six grades in the one teacher school.

#### CONCLUSION

On another page may be found the list of high school pupils in the various secondary schools and also a list of those children who graduated from the 8th grade last June.

Allow me to extend my appreciation for the good will of the parents and the very ready cooperation of the School Board, teachers, and pupils.

Respectfully submitted,

W. J. ENGLISH,  
*Superintendent of Schools.*
